

Innovations in *Point-of-Care Cell Therapy*

Supporting Clinical Research Through *On-Site* Manufacturing

Friday 8th MAY 2026

Program

09:30

Registration & Welcome coffee

10:30

Opening Remarks

Edith Rubin

Saint-Luc University Hospital, BE

10:45

Bridging Commercial CAR-T Therapies and Academic Development

Pr Guillaume Dachy

Saint-Luc University Hospital, BE

11:25

Tumor-Infiltrating Lymphocyte (TIL) Therapy: From Bench to Bedside

Dr Soraya Meghari

Miltenyi, BE

11:55

Dendritic Cell Therapy for POC Cancer Treatment

Dr Cleo Bertels

UZB, BE

12:30

Lunch & Networking

13:45

Advancing off-the-shelf NK Therapies for safer more scalable treatment of Cancer and Autoimmune Diseases

Dr Monica Raimo

Glycostem, NL

14:20

Innovations in Automated Regenerative Medicine: iPSC and MSC Expansion and Differentiation

Dr. Andreas Elanzew

Miltenyi Biotec, DE

14:50

Tissue Banks and Biobanking: Infrastructure Supporting Cell Therapies

Edith Rubin

Saint-Luc University Hospital, BE

15:15

Coffee break & Networking

15:45

TCR-T cell Therapy for POC Cancer Treatment

Dr. Mirjam Heemskerk

LUMC, NL

16:20

Panel discussion

16:45-17:00

Live Demonstration: CliniMACS Platform

Supported by

Salle des conférences (VIP)
Bâtiment Verrière - Route 278
Avenue Hippocrate 10 – 1200 Bruxelles

Inscription : via QR-Code
